PROFILE

My name is Salah Ahmed Abdel Salam, and I am currently a fourth-year student at the Faculty of Science, majoring in Computer Science at Damietta University. I am deeply passionate about programming and computer science, with experience participating in the ECPC competitive programming competition in both 2023 and 2024.

I hold a certification in Business Management from the Career Development Center at Damietta University, along with additional certifications in ICDL and Human Resources. Professionally, I work as a software engineer, specializing in front-end web development, and I am also proficient in Flutter development.

Moreover, I have earned a professional development certificate from the University Center for Career Development (UCCD), affiliated with the American University. My practical experience includes working at Vooc, a domestic shipping company, where I contributed to business management and served as a call center representative.
